BBT-University＆AJIS Blended learning Certificate Program

Overview
BBT and AJIS will start the course certification program for blended learning. The course is designed to learn the theory and practice of blended learning.

Learning Outcomes
1. Investigating fundamental principles which underpin effective teaching and learning
2. Definitions of blended learning as a distinct pedagogical approach to teaching and learning
3. Understanding the relationship between blended learning and technology
4. Understanding the various blended learning models and how are these integrated within the context of a classroom curriculum?
5. Understanding and analysing instructional design elements of blended learning in terms of their relative strengths and limitations.
6. Planning and implementing a blended learning project within the context of a classroom curriculum.

Course Module
Unit 1: What is effective teaching and learning?
Unit 2: What is blended learning and why is its importance in regard to effective teaching and learning?
Unit 3: What is the relationship between blended learning and technology?
Unit 4: What are the instructional design elements of blended learning?
Unit 5: What are the relative strengths and limitations of instructional design elements in blended learning?
Unit 6: What are the various blended learning models and how are these integrated within the context of a classroom curriculum?
Unit 7: What needs to be taken into consideration in planning and implementing a blended learning project within the context of a classroom curriculum?
Unit 8: How does one plan and implement one's own blended learning project within the context of a classroom curriculum?

Learning Style
BBT University utilizes AirCampus®, which enables learners to complete their learning activities. Learners can study in classes, submit assignments and research reports, and discuss classes. Through AirCampus®, BBT University is making an opportunity for off-campus people to study in the same class and hold discussions through the AirCampus® system.

Duration for the course
9 month (Start: September 2019 ~ End: May 2020)

Entry Requirements
・Teachers, Administrators, Governors, others

Program Fees
・The total program fees for the course are: ¥150,000*

Application Timeline & Deadlines

Next Application Deadline	Decisions
May 31th, 2019	June 7th, 2019
